A woman plays various roles and that too with love and full enthusiasm. A woman is a mother, a sister, a wife, a daughter and the most dedicated employee at her work place. She is generous, passionate and audacious. She is the one who gives life to a life. She can give you everything from love to respect to strength, without expecting anything in return. Therefore, women deserve great respect and inspiration to showcase their abilities.

The following gorgeous ladies participated in the program with songs and poetry displaying their talent, strength and power.

President Rtn Ashok Puri’s Thought of the Week

The most important relationship you have is with yourself. Everything is happening in your life results from the way you treat yourself through thoughts, words and action.
