The Nuclear Deal and It's Political Fallout

The Learned Guest Speaker, Mr. G.V. Gupta

The meeting on 25th July 2008 was presided by PE Rtn. Gurdip S. Deep and as per the directive of recently installed Pres. Saroj, Punctuality Draw was held at the start of the meeting and it was none other than PE Gurdip winning the draw!

On behalf of Pres. Saroj, PE Gurdip expressed extreme gratitude to all Midtowners for making the installation ceremony on Sunday, July 20th, a great success. Installation Chairman PP Ajit Gulati thanked all Rotarians who were very helpful and also all R'anns for being present with their spouses at the installation.

The presence of PDG Yoginder Diwan was duly acknowledged. He accompanied our very new member, Rtn. Kanan Diwan.

PP B.L. Ramsisaria introduced the Guest Speaker, Mr. G.V. Gupta, IAS (Retd) as a person of great

distinction, who occupied key positions in Haryana Government. He was Chief Commissioner of Chandigarh, Vice Chancellor of Kurukshetra University & Chairman of HSEB.

In his address, Mr. Gupta said he agreed with the Nuclear Deal but vehemently argued that this could have waited. He said USA is more keen to implement the deal and cautioned that India would become perpetually dependant on their technology. He emphasized that the major issue is the serious inflation. We should first fight inflation with long term planning. This is not the right time for nuclear deal, which could wait.

But large response from Rotarians was, "Why wait?" From an Indian perspective, what exactly does the nuclear deal accomplish? The direct benefits to India are three-fold: Increased energy diversity, greater access to technology and the potential for newer & deeper strategic partnerships.

As anyone who has experienced India's power cuts can feel, its people and its burgeoning businesses are badly in need of stable and assured energy sources. This will require a diversification of India's energy options & development of renewable energy sources, in addition to greater investments in nuclear energy.

PE Gurdip was the first one to disagree with the hon'ble guest speaker. He said it is very favourable situation and how long should we wait. We have 11

reactors which are under - utilized. Rtn. Ravi Tulsi attributed the delay to the Left. PDG Yoginder Diwan felt we are not dependant on USA. PP Ajit Gulati said it is a political move to face the electorate.

PP Col. A.J.S. Gill cited the regional strategy and issues. He said two Asian super powers are India & China. Historically, China has shown no mercy towards India. Whereas China has developed into a nuclear nation, where are we? Col. Gill further stressed that a beginning must be made immediately. However, another guest and a retired army officer, Col. Mahesh Kumar had different views. He felt that nuclear generation will be very costly and may lead to larger deficit.

Mr. Gupta felt happy that we are so concerned about

the nuclear issue. He said that the next Government in India, whether Congress or BJP, shall also go ahead with the nuclear deal.

To sum up, had there been a confidence vote in the meeting, there would have been an extremely better result than what the UPA Government got in the Parliament!

Rtn. Deepak Sood presented the vote of thanks and expressed our gratitude to Mr. Gupta for an interesting interactive session on the important issue faced by the country. Every person present in the meeting was fully involved in the proceedings and there were no 'fellow-slips'.
