MYSTERY OF HUMAN EXCELLENCE PROF. JITENDRA MOHAN

Prof. Jitendra Mohan's Captivating Lecture on "The Mystery of Human Excellence" on April 10th, 2026 At the weekly meeting of Rotary Chandigarh Midtown, members were treated to an evening of rare intellectual delight as Professor Jitendra Mohan, Professor Emeritus of Psychology, Panjab University, delivered a spellbinding lecture on "The Mystery of Human Excellence." The hall was filled with an enthusiastic gathering of Rotarians, and from the very first slide, it was clear that the audience was in the presence of a master teacher.

Drawing upon more than five decades of scholarship, global research, and personal engagement with athletes, scientists, thinkers, and leaders, Professor Mohan unfolded the idea of excellence not as an accident of talent but as an attainable human possibility—shaped by inspiration, discipline, and unwavering commitment.

What followed was a visual and intellectual feast.

Over 40 powerful slides, he wove together stories and insights from: * legendary sports-persons who redefined human limits, * pioneering scientists whose curiosity reshaped the world, * philosophers and thinkers who illuminated the inner landscape of the mind, * and everyday individuals who rose to extraordinary heights through perseverance.

Each slide was a window into a different dimension of human potential. The imagery, the anecdotes, and the psychological principles blended seamlessly, holding the audience in rapt attention. Not a single eye blinked; not a single mind wandered. The hall was immersed in a rare stillness — the kind that only true inspiration can create.

Professor Mohan emphasised that excellence is not a gift reserved for a chosen few. It is a process — a journey of self-awareness, mental training, resilience, and purposeful action. He highlighted how motivation, mindfulness, and mental discipline can transform performance in sports, academics, leadership, and life itself.

His presentation was not merely a lecture; it was an experience.

Rotarians left the hall with a renewed sense of possibility — reminded that excellence is within reach when one aligns passion with practice.

The evening concluded with warm appreciation for Professor Mohan's lifelong contributions to psychology, sports science, and human development. His presence and his message perfectly embodied our Rotary spirit of "Uniting for Good" by elevating minds and inspiring purposeful action.

SEWING & TAILORING COURSE AT SINGHPURA SCHOOL RTN. ASHOK K PURI & R'ANN SUDHA PURI

Our club is proud to share the encouraging progress of the ongoing six-month Sewing and Tailoring Course being conducted for the students of Singhpura School, which has been adopted by our Rotary Club. This initiative aims to equip young learners with a valuable life skill, fostering self-reliance and creativity alongside their formal education.

The students attend these sessions diligently after their regular school hours, showing remarkable enthusiasm and commitment. Over the past four months, they have gained hands-on experience in basic stitching, garment construction, and use of sewing machines. Their confidence and skill levels have grown steadily, reflecting the effectiveness of the program.

The course is progressing smoothly and is scheduled for completion in June 2026. We are confident that this initiative will leave a lasting impact, opening new opportunities for these students and empowering them for a brighter, more independent future.

There could be no definition of a successful life that does not include service to others.

President George H.W. Bush
